Geocache Challenge!

Challenge: Explore Surrey as a geocacher: Upload your pictures (without giving anything away!) here: https://surreyscouts.smugmug.com/upload/r9zwN6/geocaching.

What is geocaching? Well, it's like a treasure hunt using a GPS receiver which could be a handheld unit or in your smart phone. If you are new to geocaching and wonder what it's all about, watch the video here to find out more: Geocaching for Newbies

And this is a good place to start: Finding a Geocache

Then sign up for a free account at: www.geocaching.com (with an adults permission) and have a go at finding some simple caches near to you. Let us know how you get on by taking a few pictures of the caches you find and uploading them to https://surreyscouts.smugmug.com/upload/r9zwN6/geocaching

Are you already a Geocacher? Then here's a challenge for you set by The Two Peas. We've found 76 Caches in and around the County of Surrey that have 'Surrey' in their name. They are a mix of types, terrain and difficulty.

You can download the list here: https://coord.info/BM8BG2E

Your mission is to see how many you can find during ROAR, upload a photo to https://surreyscouts.smugmug.com/upload/r9zwN6/geocaching of the container (with yourself in the picture if you want) and then log your find on www.geocaching.com

Please take the usual safety precautions, stick to Geocaching rules and always let an adult know what you are doing

Be Safe and Good Hunting!!

International Geocaching Day 2020

Every third Saturday in August we celebrate International Geocaching Day! Have you marked your calendar and planned a cache outing yet? By logging any cache type on August 15 or 16, you can earn the International Geocaching Day 2020 souvenir. Happy IGD 2020!
