

## Mini-pioneering Challenge!

Challenge: Using dried spaghetti and mini marshmallows (and string/cotton if you do the carousel), build one of the designs. Use the spaghetti for the poles and the marshmallows to hold your work together. Look at the design carefully and break the spaghetti into the right size pieces as a start. Piece your design together bit by bit, being careful not to snap the spaghetti. Then upload your pictures to: <https://surreyscouts.smugmug.com/upload/dnxp6L/minipioneering>
